THE WELL-LETTERED CAT

By Porter Evans and Edward Fierro

Lines Rampant Press. \$19.95

Not just for cat lovers because of the stories involving 14 cute cats or for

alphabet addicts, this fascinating book is also a wonderful lesson in type and design. Each page continues the storyline of the cats as they go from Avant Garde to Zapf Chancery (typefaces) with loads of unusual words using the alphabet letters. A most interesting combination of words and art.
